Module Name	Test Case	Test Case ID	Test Case Description	Precondition	Test Steps	Expected Result	Actual Result	Status	Priority
Phone TestCases	Positive	PHO_001	Verify phone powers on successfully	Application/device should be ready for testing	1.Perform action for: Verify phone powers on successfully 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
Phone TestCases	Positive	PHO_002	Verify touch screen responsiveness	Application/device should be ready for testing	1.Perform action for: Verify touch screen responsiveness 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
Phone TestCases	Positive	PHO_003	Verify WiFi connectivity	Application/device should be ready for testing	1.Perform action for: Verify WiFi connectivity 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
Phone TestCases	Positive	PHO_004	Verify camera functionality	Application/device should be ready for testing	1.Perform action for: Verify camera functionality 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
Phone TestCases	Positive	PHO_005	Verify Bluetooth connectivity	Application/device should be ready for testing	1.Perform action for: Verify Bluetooth connectivity 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
Phone TestCases	Negative	PHO_006	Verify phone behavior with low battery	Application/device should be ready for testing	1.Perform action for: Verify phone behavior with low battery 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
Phone TestCases	Negative	PHO_007	Verify SIM card detection failure	Application/device should be ready for testing	1.Perform action for: Verify SIM card detection failure 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
Phone TestCases	Negative	PHO_008	Verify overheating during charging	Application/device should be ready for testing	1.Perform action for: Verify overheating during charging 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
Phone TestCases	Negative	PHO_009	Verify speaker distortion	Application/device should be ready for testing	1.Perform action for: Verify speaker distortion 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
Phone TestCases	Negative	PHO_010	Verify app crash on launch	Application/device should be ready for testing	1.Perform action for: Verify app crash on launch 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
Phone TestCases	Extra	PHO_011	Verify fingerprint unlock	Application/device should be ready for testing	1.Perform action for: Verify fingerprint unlock 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	Medium
Phone TestCases	Extra	PHO_012	Verify face unlock functionality	Application/device should be ready for testing	1.Perform action for: Verify face unlock functionality 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	Medium

Module Name	Test Case	Test Case ID	Test Case Description	Precondition	Test Steps	Expected Result	Actual Result	Status	Priority
WhatsApp TestCases	Positive	WHA_001	Verify WhatsApp login with valid mobile number	Application/device should be ready for testing	1.Perform action for: Verify WhatsApp login with valid mobile number 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
WhatsApp TestCases	Positive	WHA_002	Verify sending text messages	Application/device should be ready for testing	1.Perform action for: Verify sending text messages 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
WhatsApp TestCases	Positive	WHA_003	Verify sending images and videos	Application/device should be ready for testing	1.Perform action for: Verify sending images and videos 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
WhatsApp TestCases	Positive	WHA_004	Verify voice call functionality	Application/device should be ready for testing	1.Perform action for: Verify voice call functionality 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
WhatsApp TestCases	Positive	WHA_005	Verify status upload functionality	Application/device should be ready for testing	1.Perform action for: Verify status upload functionality 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	High
WhatsApp TestCases	Negative	WHA_006	Verify login with invalid OTP	Application/device should be ready for testing	1.Perform action for: Verify login with invalid OTP 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
WhatsApp TestCases	Negative	WHA_007	Verify message sending without internet	Application/device should be ready for testing	1.Perform action for: Verify message sending without internet 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
WhatsApp TestCases	Negative	WHA_008	Verify app crash during video call	Application/device should be ready for testing	1.Perform action for: Verify app crash during video call 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
WhatsApp TestCases	Negative	WHA_009	Verify invalid contact addition	Application/device should be ready for testing	1.Perform action for: Verify invalid contact addition 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
WhatsApp TestCases	Negative	WHA_010	Verify media upload failure	Application/device should be ready for testing	1.Perform action for: Verify media upload failure 2.Observe behavior	Application/device should work correctly	Unexpected issue observed	Fail	Medium
WhatsApp TestCases	Extra	WHA_011	Verify group creation functionality	Application/device should be ready for testing	1.Perform action for: Verify group creation functionality 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	Medium
WhatsApp TestCases	Extra	WHA_012	Verify message deletion for everyone	Application/device should be ready for testing	1.Perform action for: Verify message deletion for everyone 2.Observe behavior	Application/device should work correctly	Application/device worked correctly	Pass	Medium
